IV. OLD BUSINESS

No old business

V. NEW BUSINESS

Elm Street Project Update

- Scott Reske gave an update that the line had collapsed when they went thru with a camera again.
- Scott Reske stated the plan is to do a reroute. They will not backfill, but to reroute inlets at High St. and Pendleton Ave so that the new lines will run down Pendleton Ave. This will be Phase 2 of the project.
- Phase 1 will start construction by redoing Elm St. with brick and replacing the existing line.
- Jerry Kelly asked if there were any inlets in backyards of homes. Scott Reske responded that the intent is to put them in when they get to the design phase of the project.
- Scott Reske said going forward the developers would be responsible as much as possible for future drain projects.

McCarty Drain Update

- Scott Reske gave an update that all that was left with phase 1 was to take care of the low spots that have settled by the yellow house and Dick Riley's home across from Amvets.
- The next phase is to pick up where we left off at the railroad tracks and connect to the field on the other side of 67.

This meeting was adjourned at 5:35PM by Kyle Eichhorn
