

MADISON COUNTY
BICENTENNIAL
TREE PLANTING
PROJECT

PLANT A TREE WITH US!

Join us as we plant 200 trees
county-wide in celebration of the
200 Year Anniversary of Madison County.

Madison County Stormwater Quality Partnership
& **Anderson Rotary Club** are hosting the
Madison County Bicentennial Tree Planting Project.

Trees provide communities so many benefits including improved air quality, cleaner water, habitat for wildlife, climate control, lower energy costs, increased property values, interception of rainwater, reduction of flooding, stormwater management and better quality of life for all!

Grow Madison County's tree canopy by planting a tree this Fall!
